Tarot, Tea and Music (Service Page)

Readings are meant to be fun and uplifting. All of my readings are done with the intention of love, light and peace for the greater good of all. Through the power of intent we all have the ability to create magic in our lives and carve our dreams into our destiny.

Every reading is a personal experience and has relevance to what is going on in your life. Helpful people, family and friends will often come into the readings. As will Guardian angels, guides, spirits, and deceased loved ones.

A reading will give you clarity in situations, so that you can see the moment with better understanding. Messages will come through about the past, present and future bringing light to where healing is needed. There is an opening that is created with in your heart that gives you the opportunity to reflect and contemplate on the deeper issues of your life. When one is able to see themselves at a soul level, they are able to recognize their true potential. Harmony is created by being in tune with your purpose.

Included with your reading is a digital voice recording or a cassette tape of the session. Readings can be done in person, by phone or by email.

Mini Tarot Reading (15 minutes) \$30

A Mini Tarot Reading gives you an overview of major events and themes that will come into your life. One question will be explored and answered using a 6 card Tarot spread.

General Tarot Reading (30 minutes) \$50

Using a 9 card spread this reading will give you map of insight to guide you through the past, present and future. It will also take a look at work, passion, love, relationships and life lessons. If you have specific questions, please bring them to the reading. Andrea is able to design a spread to suit your specific needs.

Tarot Soul Journey \$90/hour

This is the full interactive session that takes the General Tarot reading more in depth. What is at the core of your being? What is your soul's purpose? What is your true happiness? The session begins with a 10 minute healing meditation working with the chakra system. Bring your questions about yourself, family and friends.

Tea leaf readings – \$50 ½ hour session, \$90/hour

Let the ancient art of Tasseography show you what's in store for the year ahead. Symbols and patterns appearing in the tea leaves will be interpreted into predictions. Tarot cards can be drawn, if questions arise. This is a fun way of seeing what's on your plate.
